I've suggested this property several times in recent years to be acquired by the Town for open space. On the Town Atlas it is parcel 34 on Sheet H-2. This parcel abuts Fort Pond Brook on Martin Street across from Jones Field. The rear of the parcel abuts Town conservation land whose frontage is on Stow St. To my knowledge the landowner has ceased paying taxes on the property in recent years.

This parcel will provide a public canoe launch to Fort Pond Brook for those interested in exploring the upstream wetlands that teem with wildlife. It is even possible to continue upstream on Heath Hen Meadow Brook into Stow for those with an adventurous bent. It also will provide public access for fishing.

Robert Guba

Please alert the Board of Selectmen of any projects that would be suitable to be part of the Community Preservation funding. Suitable projects would be Open Space, Recreation, Affordable Housing and Historic Preservation. Please take a look at the CPC site on the Acton Town Website for more information. The board would like to be informed of any potential projects by Monday October 20th noon.

Sincerely,

Lauren S. Rosenzweig
